Horland Wood, Esq.

The American Numismatic Society  
156<sup>th</sup> St + Broadway, New York

Dear Sir,

We beg to acknowledge receipt of your favor of the 10<sup>th</sup> and in reply are very glad to submit prices for printing illustrations by our Heliotype process, as follows:

750 copies of our plate on paper 6x9 $\frac{1}{2}$	—	35 <sup>00</sup>
" " " each" two plates" " " "	57 <sup>00</sup>	(#28 <sup>50</sup> per plate)
" " " " four " " " "	90 <sup>00</sup>	(22 <sup>50</sup> " " )
" " " " eight " " " "	160 <sup>00</sup>	(20 <sup>00</sup> " " )

750 copies of our plate on paper 8 $\frac{1}{2}$ x 11	—	37 <sup>50</sup>	(#3
" " " two " " " "	65 <sup>00</sup>	(#32 <sup>50</sup> per plate)	
" " " four " " " "	100 <sup>00</sup>	(#25 <sup>00</sup> " " )	
" " " eight " " " "	180 <sup>00</sup>	(22 <sup>50</sup> " " )	

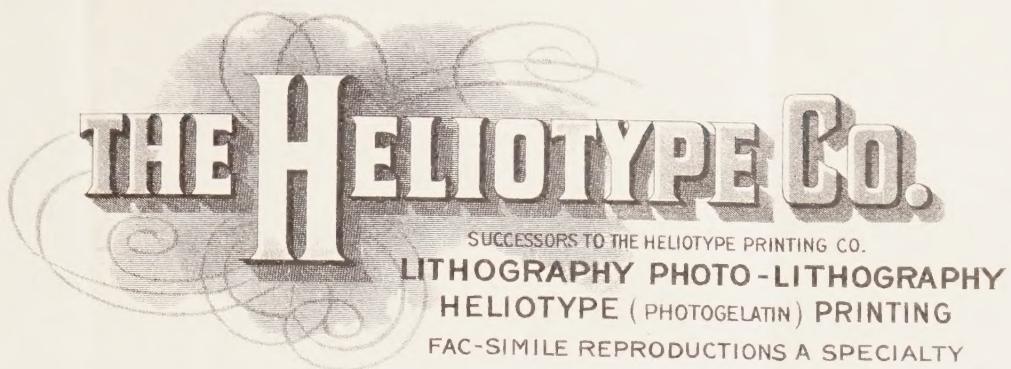

The above is for printing with white backgrounds on a pure rag stock like sample enclosed. If black backgrounds are wanted the cost will be increased by #3<sup>00</sup> per plate.

We enclose herewith a specimen of our work and awaiting your further favors which will receive our best attention we remain

Very truly yours

The Heliotype Co.

Horland Wood, Dog. New York, City

Dear Mr. Wood;

In compliance with your request at our meeting on Monday we have made careful estimate of the cost of printing editions of 10 plates of coins and beg to advise as follows. We would print the eight plates in two sheets of four and the two other plates by themselves - page size  $8 \frac{1}{4} \times 11$  turns paper to be similar to that previously used =  $22 \times 28-75$  - prints to be delivered unprinted to the J R Main Co. price for 650 copies each \$36<sup>00</sup> per plate - total \$ 360<sup>00</sup> or for 700 copies each \$37<sup>50</sup> per plate - total \$ 375<sup>00</sup>

Awaiting your further commands and  
repeating that you did not have impression here in Boston I

remain

Very truly yours

Dear Mr. Wood:

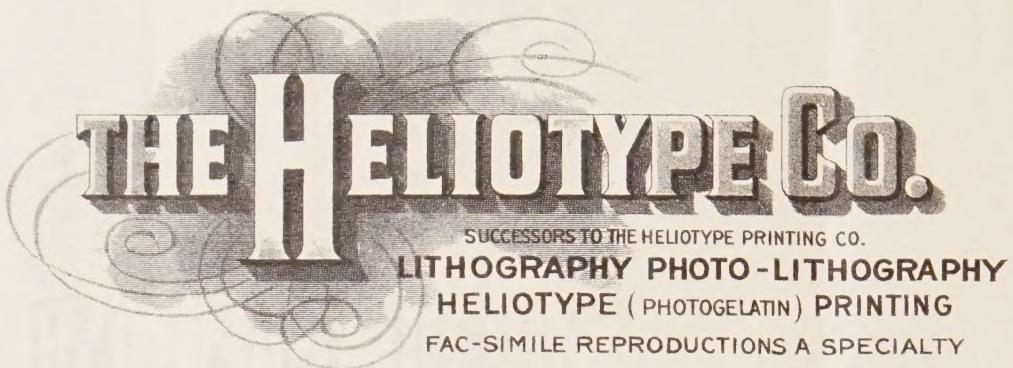

We have made an estimate for printing 775 copies each of two plates of coins on same quality and weight of paper as the previous lot and beg to quote price of fifty two and one half dollars per plate making one hundred and five dollars (\$105.00) for the two.

If you had four plates, or multiples of four, the price would be less as our presses work most economically on that basis.

Awaiting your further commands we remain

Jamaica Plain, Mass.

Gentlemen:

We are in receipt of proofs of the two plates you are making for us. These are fairly satisfactory. Our only comment is that they look a little too flat. I think this is more or less a matter of lighting.

If in your process you could make them the least bit snappier, I think it would be better. If you cannot easily do this, print them as they are.

Very truly,

Curator.

Dear Mr. Wyman,

Can you send us the copy for the replate  
to come for the work you have in hand for you? The frontispiece, as  
I remember it. We also need the arrangement of pages so we  
can "set up" the negatives in paper form.

Awaiting your favor I remain  
Very truly yours

W. G. Ramsey

Arthur C. Wyman Esq.

Mr. Zimmerman Smith  
156<sup>th</sup> St + Broadway New York

June 15th, 1920

The Heliotype Company  
172 Green Street  
Jamaica Plain, Mass.

Attention - Mr. Ramsey

My dear Mr. Ramsey:

I am now ready to go ahead on the plates; material for which I left with you when in Boston. They are to be arranged in the following manner -

The first to be No.1
The 2nd ..... " 2
The 3rd ..... " 3
The 4th ..... " 55
The 5th ..... " 4

These numbers being the numbers which I put on the pieces when I turned them over to you.

I am enclosing, herewith, a set of post cards. The one showing a Roman gateway with the title "Trier, Porta Nigra, Landseite" is the one I wish to use for the frontispiece. This is the card next to the one attached to the cover. I do not wish the lettering to appear in the picture and would, also, like to have you take out the electric wiring which shows. I suppose this can be done by retouching and on this picture we would not object to that.

Will you let me know when these can be ready. There is no pressing rush about it but, of course, I would not want too much delay, and

The Heliotype Co. Cont.

June 15th, 1920.

- 2 -

I am particularly anxious to know when I can count upon the finished work so that my other plans can be made accordingly.

I presume, of course, that you will let a large proof of the plates before I finally approve them.

I think that I have given you now all the information that is necessary. If not, please let me know.

Very truly yours,

Assistant to Curator

Dear Mr. Wyman,

<sup>30</sup>  
BOSTON, MASS. June 24 1920

Enclosed separately are six proofs of the six plates we have in hand for you. They are arranged so that the first page and the sixth plate (#5) fold outside of the rest. If you will examine the prints for quality and indicate on the back or will get read, for prints. These prints, in this way are on a paper somewhat heavier than we used to use for them.

I will send proofs to Mr. Marvin today.

Yours very truly

John C. Wyman

W. C. Wyman

August 7th, 1920

The Heliotype Company  
172 Green Street  
Jamaica Plain, Mass.

Gentlemen:

I am sending you today, under separate cover, a print and negative of a medal of Theodore Roosevelt. We want a heliotype reproduction of this in sepia if that is possible; and my recollection is that Mr. Ramsey told me it was when he was here in New York. The particular problem is, however, that it must be reduced so that the diameter of the medal in the heliotype plate shall be not more than 2 1/4 inches - as a matter of fact, I would like to get it 2 1/4 inches. The two sides of the medal are to appear on the same plate in the negative as shown by the prints mounted on card-board. Mr. Ramsey will understand that the reason for this reduction is in fitting the whole thing within the 3 x 3 limit which our new form of publication allows us. As a matter of fact, if the diameter of the medals is made 2 1/4 inches, the total distance of the top of the upper one to the bottom of the lower one, will be considerably less than five inches, but this is to allow for the caption which must also come in within the specified limits.

We are expecting to have nine a number of these made for our next monograph, but I am sending this on to you in advance so that you may see how it looks in the sepia before you go ahead with the others. As a matter of fact, I now have in hand quite a number of illustrations which we are to use shortly, but as there has been some delay in our printing I have been holding them until that was straightened out, so that the plates might not be ready too far in advance of their actual use.

In this connection, I would like to know if possible whether you are now in a situation to give me pretty prompt deliveries when the work is finally sent to you.

If Mr. Ramsey happens to be in New York within the next few weeks, I would be very glad to have him call as he might help me with one or two of the problems that must be solved.

Very truly yours,

4/4

Jamaica Plain, Mass.

Attention of Mr. Ramsey.

To Mr. Ramsey:-

I am sending you, under separate cover, by registered mail, four cards with auto mounts thereon of which are heliotype plates. I have marked these cards I and II, and A and B. I and II are to be used for one article in our series of Numismatic Notes and Monographs, and A and B for another article. They are to be successive plates bound at the end of each of the articles.

I believe you understand that our plates must be within a 3 x 5 inch dimension. In printing them they are to be kept sufficiently up on the page to make it possible for the caption line to be included within this limit of 3 x 5 inches.

Very truly yours,

Assistant to Curator.

November 6th, 1920

The Heliotype Company  
172 Green Street  
Jamaica Plain, Mass.

Dear Sirs:

I am enclosing print of a photograph of a coin. I want a plate made of this to use as a frontispiece in an article which we are now preparing for the press.

In this particular case, I should be glad to have an enlargement bringing the diameter of the coin to approximately 2½ inches. I say "approximately" because the coin is not exactly round, and the matter of exact measurement is not important.

Could you enlarge this, as suggested, without losing any of the sharpness of detail? If necessary, or advisable, I could send you the negative.

Very truly yours,

Assistant to Curator

Dear Mr. Weyman,

We beg to advise that we have shipped to you all the signal material that we have of you consisting of 12 large cards of casts and 3 small ones, also some photographs. This does not include current orders in hand nor is it of completed work

In relation to the enlarged photograph of single coin or medals we expect to send you proofs this week.

You have probably received the casts before this as they left here on Monday, 1<sup>st</sup> October, being <sup>being</sup> away most of the time Monday and yesterday afternoon. We are sorry to say, <sup>being</sup> away most of the time Monday and yesterday afternoon was not out after for which we ask your indulgence.

We have not heard in regard to the proofs that we sent out yesterday afternoon. For illustrations that we are making for the museum we are supplying all the casts now. For illustrations that we are sending you we are sending them printed on the same size paper as your work we are sending you the sample carded which is the same as that on which your proofs are printed.

Availing of your permission we remain

Very truly yours

The Heliotype Co.

November 18th, 1920.

The Heliotype Company,  
Boston,  
Mass.

Attention of Mr. W. C. Ramsay.

Dear Mr. Ramsay:-

I received your letter this morning, and the casts, as advised have rapidly arrived after the letter.

In regard to the paper, a sample of which you submitted, it seems to be fairly satisfactory except for the possible degree of grain in it. The place which you sent me the two proofs which might assist the making of a picture. I presume that this would be assisted by a good careful selection of the small sizes which you sent me; in fact on this, otherwise it is entirely satisfactory.

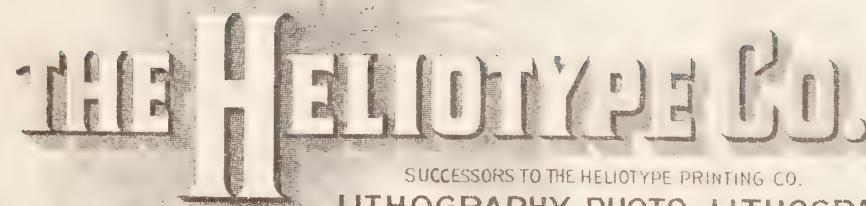

I am anxious to see the reverse of the single coin which I sent you a few days ago.

In regard to all the other work which you have done for us in the small sizes, it is all satisfactory even though I have not returned the proofs O.K'd.

Very truly yours,

Assistant to Curator.

The Heliotype Company,  
173 Green Street,  
Jamaica Plain, Mass.

Attention of Mr. W. C. Ramsey.

Dear Mr. Ramsey:-

I have received the proof of the Heliotype enlargement of a Greek coin which I sent you. As I had feared would be the case, this has lost some of the detail in enlargement, and we have decided not to use it. You must understand however, that we do not consider that this is in any way your fault. We tried it as an experiment with no very great confidence that the result would be what we are after, but now that we are undertaking a rather more extensive publication than we have done in the past, we have been anxious to try out some new ideas just for the purpose of finding out how well they would work, and are perfectly satisfied with everything that you have done for us.

In this connection I might add that we are also perfectly willing to pay you for such of our work as is already done, and as we have not paid you anything for some time now, I should be very glad if you would send us a statement either for all or such portion of the account as you desire.

Very truly yours,

Assistant to Curator.

March 9th, 1921

The Mellenyce Press  
172 Brattle Street  
Jamaica Plain, Mass.

Dear Sirs:

Your favour with proofs came to hand today. The lower right-hand side of the Army Line oval looks a little wobbly; I think you can straighten this up, though it should not be difficult. The initials - or better, what Mr. Marvin says should be necessary - will you tell me more about this?

The Neinman proofs are also being returned. "Johns" will have to be made smaller. As you wished out the arrows separately, I am sending you a post office label, should have been given you the first time. On two or three of the stamps there are small squares which I would like to have you take out; and on two or three others you may wish the lines to be quite right. I am sending lines two or three to show you what I mean. Could you close up the ovals on the verso of trifles on the cut of the badge?

In the course of a few days, Mr. Marvin will send you a drawing for your approval, and, I hope, you will remember that the letterpress will be printed on both sides of the proofs.

Very truly yours,

W. A. S.

Dear Sir:

For fifty four years we have succeeded in maintaining a high standard for facsimile reproduction work in monotone and in color, at reasonable prices.

Our Heliotype (photo-gelatin), photo-lithograph, photo-grain and lithographic processes enable us to handle to the best advantage, everything in the line of reproduction work. We believe we can give you better results and better service than you can get by other processes.

We have a wide experience in the handling of illustrations for scientific work in the different fields, Astronomy, Archaeology, Entomology, Ethnology, Zoology etc. Among our customers we number some of the most painstaking Scientists, but we have always been able to satisfy the exacting requirements of this class of work.

Trusting you will be interested to get prices on work you may have in preparation, we remain

Very truly yours

The Heliotype Co.
